## 1、Appearance of massage chair:

## 2.remote controller

### 3、specifications of the products :

Description	Specifications
Model No.	OP-VERA 4D
Rated Voltage	110-120V~
Rated Frequency	60Hz
Rated current	1.0A
Timer	5/10/15/20/25/30 minutes
Dimension (L x W x H)	Product carton: 51" x 30.5" x 50"
Weight	Product gross weight: 235.9 lbs
	Product net weight: 203.9 lbs
Length of the wire	Controller wire: 59"
	Power supply wire: 71"
	Audio wire: 25.6"
Usage condition	Environment temperture: 10°-40°
	Contrasting humidity: 30-85RH
Storage condition	Storage temperture: 20°-60°
	Storage humidity level: 30-85RH
Safety feature	Equipped with overheated and power surge safety protection.
Using benefits	Increasing blood circulation; Relieving muscular fatigue

## 2、Massage chair tools and use

### 2.tools

					
Screwdriver size 1,2,3	Diagonal cutter and long nose pliers	Soldering Kit	Spanner tools Kit	Test pen	Allen Key set
					
Ratchet Tools Set	24V/DC power	Electric Driver	electrical adhesive tape	Cable Ties	WIRE ONECTORS

### 3、Usage of multimeter

**EASEPAL**

厦门蒙发利电子有限公司客户服务部

### 3.1、Function of the test gears

**Data hold switch**: Memorize the measured data for comparison。

**Buzzer (diode test gear)**: Measure the quality of diode, the on-off and alarm function of circuit

**Resistance gear test gear**: Measure the quality and value of resistance

**DC voltage Test gear V-**: Measure DC voltage

**AC voltage test gear V~**: Measure AC voltage

**VΩ / COM**: VΩ Red pen port (+ pole) during test, black pen port (- pole) during com test

**Note**: when carrying out resistance or voltage test, it is necessary to select a suitable range. If the range is too small to be measured, and the range is too large, the test error range is large; if the voltage is not known, it is necessary to select a range measurement with a large windlass.

### 3.2、On / off measurement of lines

**open circuit**

As shown in the left picture, first set the multimeter to the buzzer and power it  
When the switch is on, the multimeter will display "0."; then contact the two probes with the ends of the red wire  
At this time, the multimeter still shows "1." there is no change, which means there is an open circuit in the middle of the wire, that is, the line is open.

**close circuit**

As shown in the picture on the left, if the multimeter shows the number of ". 002" or ". 00n" and gives an alarm, it means that the wire is connected.

### 3.3、Measurement of AC voltage

As shown in the picture above: measure the household plug-in board power supply (220V), select the range of 750, and the test result shows "224", indicating that the actual voltage of this group of sockets is 224v at the moment (the switch is pressed down, so there is power, and the light is on).

As shown in the above picture: measure the power supply (220V) of our household plug-in board, select the range of 750, and the test result is displayed as "001", indicating that the actual voltage of this group of sockets is 0V at the moment (the switch is not pressed down, so there is no power, and the light is not on).

### 3.4、Measurement of dc voltage

As shown in the figure above: the test result shows "1.58", indicating that the voltage at both ends of the battery has 1.58V, and the red watch pen is connected to the battery's "+" pole, while the black pen is connected to the electromagnetic "-" pole.

As shown in the figure above: the test result shows "-1.58", indicating that the voltage at both ends of the battery has 1.58V, and the red watch pen is connected to the battery "-" pole, and the black pen is connected to the electromagnetic "+" pole.

### 3、Internal structure and disassembly of massage chair

#### 1、Internal structure diagram (overall):

## 2. Internal structure diagram (main PCB box):

AIR VALVE 2  
WAY

air pump

main PCB

Switching power  
board

EASEPAL

厦门蒙发利电子有限公司客户服务部

### 三、Circuit working principle

#### 3、main PCB:

J28: backrest actuator

J2: Welcome lamp

J1: Lamp belt

J6: Armrest shoulder inflation

J7: Gearbox inflation

J21: Bluetooth board

J4: heater

J5: air pump

J16: Core board

J27: Bluetooth board 24V

J14: remote controller

J26: mechanism PCB  
J1/legrest 24V

J12: backrest actuator count

J8: PALM SENSOR HOLDER

J25: power PCB

#### 4、Core board:

## 4、Massage chair removal instructions

### 1、disassembly of the pillow

unzip the zipper

pillow

EASEPAL

厦门蒙发利电子有限公司客户服务部

## 2、disassembly of backrest pad

unzip the zipper

unzip the zipper

unzip the zipper

unzip the zipper

disconnected the terminal

backrest pad

unzip the zipper

Tear off the sticky fur buckle

Heater

EASEPAL

厦门蒙发利电子有限公司客户服务部

### 3、disassembly of legrest

unzip the zipper

remove 2 limit baffles

disconnect the air hose and terminals

remove legrest

#### 4、disassembly of legrest

##### a. remove the legrest

Remove 12 screws and remove the cover and hardware

Cut off the buckle and disconnect the signal terminal

Remove 4 screws

Remove 3 metal clips

air valve 2way

disconnected the terminals

Remove 2 screws

Connect legrest PCB

EASEPAL

厦门蒙发利电子有限公司客户服务部

unzip the zipper

Remove 4 screws

Remove 4 screws

Remove 2 screws

upper legrest cover

EASEPAL

厦门蒙发利电子有限公司客户服务部

Disassembly instructions for the lower foot rest

unzip the zipper

Remove 3 screws and pry out U-shaped nails

Remove all screws

Remove 4 screws and remove the fixing rope

LEATHER - FOOTREST

EASEPAL

厦门蒙发利电子有限公司客户服务部

Remove all screws

Remove 8 screws

Cut off the buckle and disconnect the signal terminal

Remove the screws and remove the foot roller assembly

EASEPAL

厦门蒙发利电子有限公司客户服务部

## 6、disassembly of side panel

remove the legrest

Remove the screws

unzip the zipper

Remove 1 screws

unzip the zipper

Remove 1 screws

Remove 4 screws

Cut off the buckle and disconnect the signal terminal

Lift the side panel up first, then move it back out

Cut off the buckle and disconnect the signal terminal

remove left side panel

Lift the side panel up first, then move it back out

Cut off the buckle and disconnect the signal terminal

remove right side panel

## 7. disassembly of Bluetooth PCB

disconnect the signal terminal

Remove 2 screws

Bluetooth PCB

### 8. disassembly of the side panel

Remove 11 screws

Remove 11 screws

Remove 3 screws and cut off the tie buckle

speaker

Remove 2 screws and cut off the tie buckle

Light belt

EASEPAL

厦门蒙发利电子有限公司客户服务部

unzip the zipper

Remove 3 screws

Remove 4 screws

disconnect the signal terminal

Palm sensor upper cover

EASEPAL

厦门蒙发利电子有限公司客户服务部

Remove 2 screws

Remove 2 screws

Break open the buckle and remove the armrest cover

Remove 4 screws

LEATHER - ARMREST

EASEPAL

厦门蒙发利电子有限公司客户服务部

Remove 2 screws

Remove 2 screws

Break open the buckle and remove the armrest cover

Remove 4 screws

LEATHER - ARMREST

EASEPAL

厦门蒙发利电子有限公司客户服务部

Remove all screws

Remove 2 screws

Phone slot

Remove 3 screws and cut off the tie buckle

Welcome light

### 9、disassembly of backrest cable

Remove 6 screws

Push the front backrest forward  
, Remove 4 screws

Remove one lightning  
wire screw and unplug  
two signal terminals

EASEPAL

厦门蒙发利电子有限公司客户服务部

Remove 3 screws, Disconnect the air pipe

Remove 2 screws

Cut off the buckle and disconnect the signal terminal

**backrest cable**

EASEPAL

厦门蒙发利电子有限公司客户服务部

## 10. disassembly of Core board

Disconnect the signal terminal

Remove the 4 Insulating column

Core board

11. disassembly of gearbox (Refer to the disassembly of the backrest cable)

Remove 6 screws

Remove 6 screws

gearbox

EASEPAL

厦门蒙发利电子有限公司客户服务部

## 12. disassembly of main PCB box

Remove 3 screws and remove the upper cover of the **main PCB box**

Remove 3 screws, Disconnect the 2 signal terminals

power PCB

Disconnect all signal terminals

Remove the Insulating column

main PCB

EASEPAL

厦门蒙发利电子有限公司客户服务部

main PCB box

Remove 5 screws

Remove 2 screws, Disconnect the air hose

Cut off the 2 buckles and disconnect the signal terminals

air pump

**main PCB box**

Remove 5 screws  
, Disconnect the signal  
terminal and air hose

**AIR VALVE 2 WAY**

EASEPAL

厦门蒙发利电子有限公司客户服务部

### 13. disassembly of backrest actuator

Cut off the buckle,  
disconnect the signal  
terminal, and unplug the  
plug and pin shaft

Remove two screws on each side

backrest actuator

### 14. disassembly of AIR VALVE 3 WAY

Remove 4 screws

Cut off the buckle and disconnect the signal terminal

Remove 4 screws

Cut off the tie and disconnect the air hose

**AIR VALVE 3 WAY**

Long press here

press here

## 5、message chair auto-check list

### 1、message chair auto-check list

**Get into :: Press and hold Settings for 4 seconds, Enter the password interface , Password 0592, enter auto-check model**

No.	故障描述 problem description	可能发生原因 steps of shooting the trouble	排除方法 steps of shooting the trouble	备注 remark
28	侧板检测到按键长按超过45S The side panel controller has detected that any button has been pressed for more than 45 seconds	1. 有按键卡键 1. one of the button has been blocked.	1. 检查侧板按键 Check the side panel buttons	实时检测 turn on the chair
01	手控器检测到按键长按超过40S remote control tested any key pressed more than 40 seconds	1. 有按键卡键 1. one of the KEY has been blocked.	1.检查手控器按键 1. Detect remote control buttons	实时检测 turn on the chair
